EATERY & PUB BREWERY

Our Brewing Philosophy

To us craft beer is more than just a beverage; it is a work of art, and our way of expression. At Brewbot we take our beer very seriously, research the origins and history of each style we brew thus producing a unique and superior product.

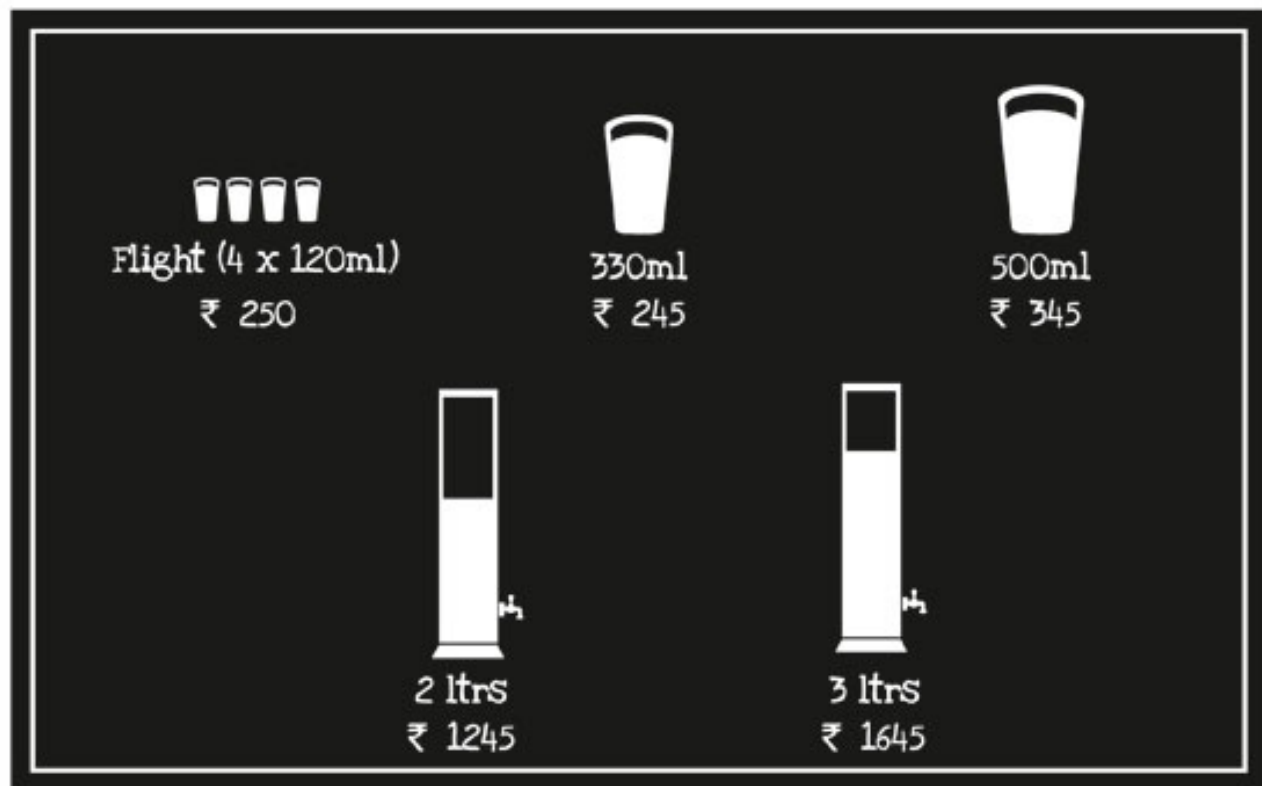

The passion and enthusiasm that we share for each pint we produce, takes us on a journey around the world, not only to source the best ingredients possible, but also improvise and apply brewing traditions and cutting edge modern techniques used around the world today.

We are constantly on the pursuit of excellence, and our goal is to innovate and provide you, our valuable patrons, an experience that is unique, honest and consistent...

Unlike commercial beers: What we do, is...

- we do not add preservatives
- we do not add any additives
- we do not filter our beer
- import 100% of our malts, hops and yeast
- the beers we produce are completely natural
- most importantly, we produce unique and distinct styles of craft beer, just for you!

We look forward to having a pint with you, Cheers!
